- CEE: dependency on Poland should continue to diminish in upcoming years. Maturity has been reached in Czech Republic and Slovakia, but Hungary still offers growth potential.
- CIS: acceleration in 2017 – step-up in store openings in Russia and Ukraine and entry via franchise stores into Belarus (April 2017). Entry into Kazakhstan planned for 2H18. SEE: further growth potential, entry into Slovenia in 2H18.
- WE: 20 stores in Germany by the end of 2018. First store in London opened in September 2017.

EXPANSION BY COUNTRIES

- It is our target to add at least one new country every year.

- Reserved stores in 23 countries at the end of 2018. 3 new markets in 2018: Kazakhstan and Slovenia (own stores) and Israel (franchise stores).
- 2018 targets: (1) selective development in Poland, (2) acceleration of growth in Europe (emphasis on South Eastern Europe), (3) further development in the CIS region, and (4) return to growth in the Middle East.

E-commerce – our second growth pillar

E-commerce is the
second pillar
of our growth strategy.

We have high quality internet
stores in
11 countries.

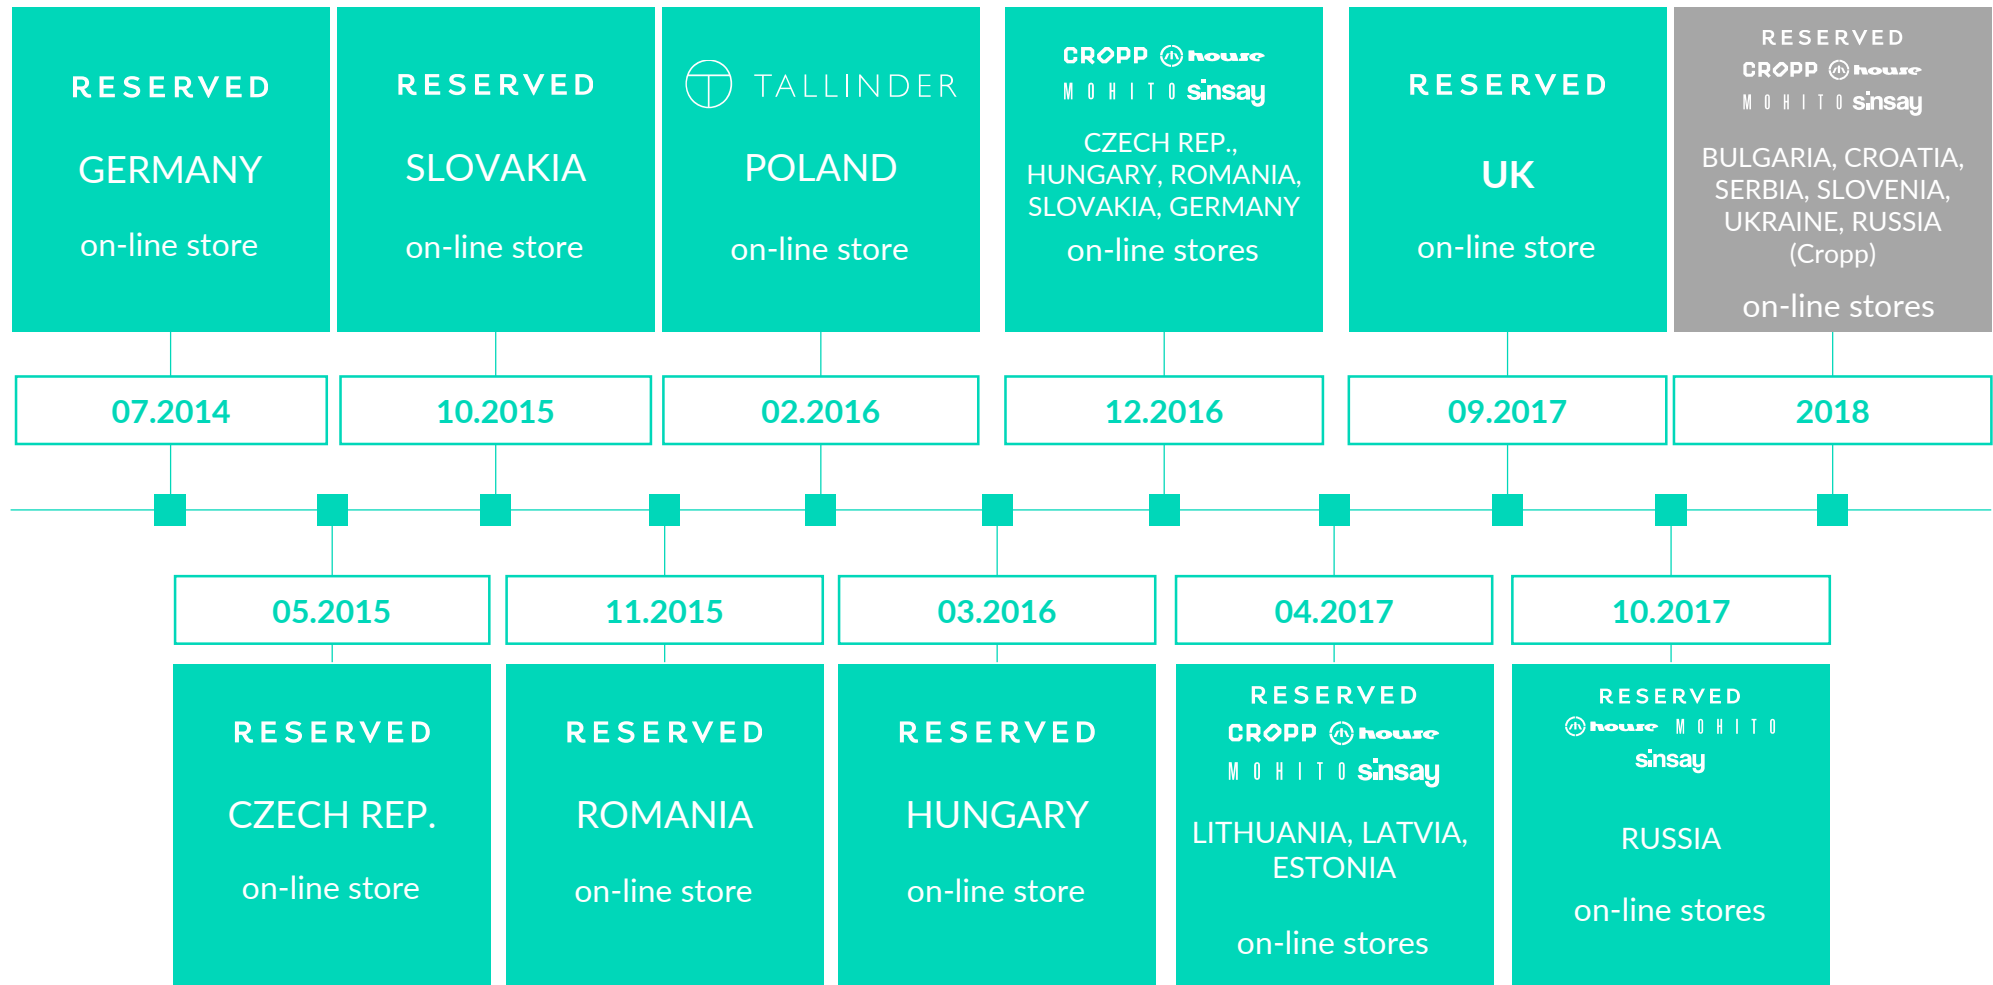

- We have been successful on every on-line market that we have launched. Poland remains the largest on-line sales contributor due to strong recognition of our brands and much earlier roll-out.
- In April 2017 we signed an agreement with Arvato to outsource on-line logistics of four our brands with the aim to speed up and improve the logistics. The agreement became operational in Autumn 2017.
- We continue to work on e-commerce growth: 16 countries with e-commerce by the end of 2018.

E-commerce in new countries.

2018 TARGETS

Continuation of double-digit revenue growth due to floorspace development and e-commerce.

Group's gross profit margin should be between 54-55% (higher YoY).

Net cash to continue.

RISKS

Ban on trade on Sundays (18% of Polish revenues).

Unfavorable FX trends on US\$, EUR, RUB versus PLN.

Sales/ m2 should continue to grow

- Revenues/ m2 in Poland were on average c.17% higher in 2013-17 than on foreign markets.
- The difference narrowed in 2016-17 due to stronger recognition of the younger brands abroad, more favourable FX trends and introduction of a new replenishment system abroad.
- Except for Cropp, in 2013-17 revenues/ m2 in Poland were higher than abroad due to superior brand recognition, yet the difference gradually dissipates on other brands.

Gross profit margin on the rise

SOURCES OF GROSS PROFIT MARGIN IMPROVEMENT

FX – c. 90% of purchases are made in the Far East and indexed to US\$. Appreciation of zloty to US\$ decreases costs of purchases from Asia.

Sell-off policy – new inventory management policy is aimed at selling goods to a maximum extent in stores to avoid the costs of their return and transport to post-season warehouse.

Quality of collections – we have introduced far reaching changes within our design departments so as to better meet the customers' expectations.

High operating leverage business

AVERAGE MONTHLY SG&A COSTS/ M2 (PLN)

SG&A COSTS

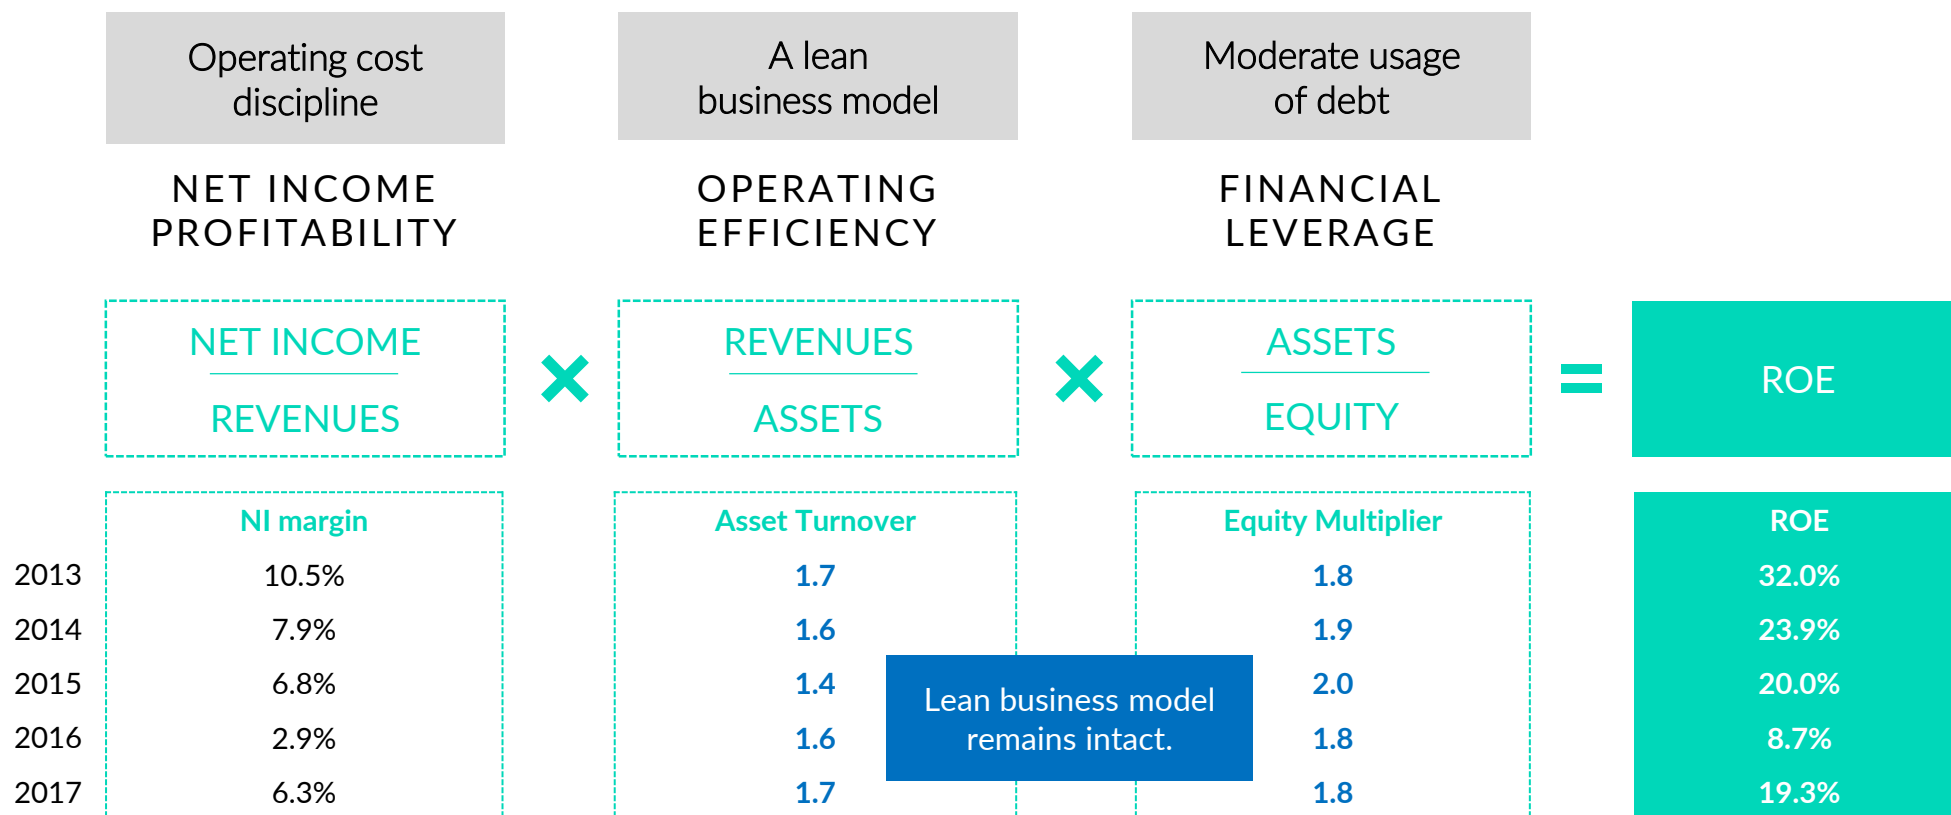

Note: SG&A relations based on group 2017 data.

- Almost 70% of our SG&A costs are fixed, which implies a high operating leverage.
- Almost 60% of SG&A costs are linked to foreign currencies → zloty appreciation is favourable for EBIT.
- Fall in SG&A/ m2 over 2013-15 → optimisation of costs of stores and headquarters.
- Higher SG&A/ m2 in 2016-17 → growth in costs of stores (higher rentals, higher HR costs due to growing salaries, higher other costs of stores due to flagship openings) and pick-up in HQs costs.

Strong and stable positive 2016 and 2017 FCFF
(Free Cash Flow to Firm).

NOPAT

- We focus on positive LFLs on all brands.
- Positive LFLs trigger the operating leverage to work in our favour.
- Strong growths in the higher margin e-commerce should additionally support EBIT margin.

CAPEX & D&A

- We invest in high quality store locations where we obtain fit-outs.
- Current logistics centre is sufficient until 2020.
- We outsource e-commerce logistics.

NWC

- It is our aim to match liabilities to the level of inventory.
- We use supply chain financing for our suppliers.
- We search for the optimal inventory/ m2 level.

Net cash supports dividends

NET DEBT VS NET DEBT/EBITDA

DIVIDENDS VS NET EARNINGS
(PLN m)

- Despite dynamic organic growth, we turned net debt into net cash.
- Our aim is to maintain net cash levels in the upcoming quarters due to plans to further develop supply chain financing.
- LPP has a history of dividend payments (first in 2010 from 2009 earnings).
- It is the intention of LPP's management to continue dividend payments in future.

Focus set on network optimisation in Poland.

- Poland is LPP's largest market, generating 56% of group revenues in 2017.
- As development of company-owned stores was initiated domestically, Poland is the market where sales/ m2 are higher than average abroad due to stronger brand recognition.
- Currently, stores of all brands are present in Poland in best shopping malls and high-streets.
- We focus on network optimisation and quality of stores in Poland.

- Hungary remains the least saturated CEE market, despite 2015 introduction of House and Sinsay brands.
- After taking over the Slovak franchise stores (April 2014), we still see some development potential.

We see development potential in the SEE region.

- Late SEE entry (2008) due to: 1) priority given to CIS and 2) limited appropriate infrastructure in the region.
- Along with softer macro environment, in 2014 we stepped up our SEE development, opening more stores in Romania and Bulgaria and entering Croatia.
- We see medium-term development potential. First store in Serbia was opened in August 2017. In 2018 we plan to enter Slovenia.
- Focus on e-commerce expansion in 2018.

- Following the geopolitical issues from 2014, we have withheld new Russian and Ukrainian openings. From 2017 we accelerated development in both Russia and Ukraine.
- First franchise Reserved, Cropp and House stores were opened in April 2017 in Minsk, Belarus.
- Own stores in Kazakhstan are planned for 2018.

Gross profit margin on the upward trend

QUARTERLY GROSS PROFIT MARGIN

2017 PURCHASES BY REGION

- The majority of purchases is conducted in the Far East and indexed to US\$. Appreciation of zloty to US\$ decreases costs of purchases from Asia.
- Due to new inventory management policy we are better prepared for weather changes in the season.
- Sizeable 4Q17 YoY gross profit margin pick-up, due to: (1) improved collections, (2) favourable FX trends, (3) new inventory management policy and (4) lack of one-off transaction, which lowered 4Q16 margin.

New inventory management policy
