# Further inventory reduction

## QUARTERLY GROUP GROSS PROFIT MARGIN

(data from 1Q21/22 from continued operations)

4Q22/23

18

## INVENTORY AND INVENTORY/ M<sup>2</sup>

(data from 1Q21/22 from continued operations)

- Gross profit margin in 4Q22/23 lower YoY by 10.5 pp. due to: 1) high 4Q21/22 base supported by deferred demand after COVID-19 and favorable purchase prices of goods, 2) higher share of Sinsay brand in sales, 3) higher YoY promotions of goods originally intended for eastern markets and 4) less favorable YoY US\$/PLN exchange rate.
- Margins in Reserved, Cropp, House and Mohito brands sizeably above 50%, the highest in Mohito and Cropp.
- Fall in inventories by 13.2% YoY due to a smaller number of stores in the sales network. Spring/Summer 2023 collection constituted 73% of inventory.
- Decrease in inventories/ m<sup>2</sup> by 2.0% YoY and 10.8% QoQ due to continued improvement in the goods management process and work on accelerating rotation.

19

## SG&A COSTS / M<sup>2</sup>

- Increase in YoY rental costs/ m<sup>2</sup> → higher share of turnover-based rentals, depreciation of PLN against EUR and the effect of inflation indexation.
- Decrease in personnel costs/ m<sup>2</sup> YoY → flexible management of work schedules, lower number of employees due to application of new technologies.
- Stable YoY other costs/ m<sup>2</sup> → materials for opening new stores (e.g. RFID clips), actions optimizing energy consumption.
- Decrease in SG&A costs/ m<sup>2</sup> by 16.1% YoY → lower operating costs of online stores (lower YoY marketing expenses, costs of transport and e-commerce logistics).
- Share of SG&A costs in revenues decreased from 48% in 4Q21/22 to 40% in 4Q22/23.
- In 4Q22/23, store costs amounted to PLN 894.7m, +23.6% YoY on continuing operations, and HQs and e-commerce costs PLN 770.1m, -15.4% YoY.

# Quarterly EBIT improvement

- Double-digit sales growth YoY due to new store openings and high comparable sales (LFL).
- Gross profit margin decrease YoY due to: high base, higher share of the Sinsay brand diluting the gross margin, stronger YoY promotional campaigns and unfavorable US\$ FX.
- Stable YoY SG&A costs due to e-commerce cost reductions (marketing and logistics).
- More favorable impact of other operating activities YoY in 4Q22/23. 4Q22/23: PLN 9.8m reversal of write-down on stores in Ukraine (restoration of activity), PLN 11.4m gain on liquidation of IFRS16 contracts and PLN 15.2m reversal of credit risk write-down on receivables for goods sold to Russia. 4Q21/22: PLN 272.9m of write-offs related to Ukraine, PLN 3.4m of profit from the liquidation of IFRS16 agreements and PLN 3.2m of subsidies.
- Less favorable YoY net financial activity balance in 4Q22/23 mainly due to FX losses (-PLN 202.7m vs. -PLN 98.7m in 4Q21/22) and higher costs of interest on loans and bonds. Additionally, in 4Q22/23 PLN +74.3m reversed discount on receivables for sold stores in Russia. PLN + 6.9m of adjustments on liabilities under IFRS16 in 4Q21/22.

# Over PLN 1bn profit from continuing operations

- High double-digit YoY sales growth thanks to the opening of new stores, high comparable sales (LFL) and sales in the online channel.
- Decrease in gross profit margin YoY due to: higher YoY promotional campaigns, higher share of the Sinsay brand diluting the margin, high freight costs (1H22/23) and high base.
- Growth in SG&A costs lower than revenue growth. Higher costs of stores due to growing share of turnover-based leases, growth in personnel costs due to higher minimum wage and rising costs of e-commerce (logistics and online marketing).
- More favorable impact of other operating activities: surplus of PLN 115.3m from the reversal of write-offs created for Ukrainian stores in 2022/23 compared to PLN 272.9m of write-offs related to Ukraine in the base.
- More favorable YoY balance on financial activities due to financial income: PLN 24.9m FX gains (PLN 99.0m FX losses in 2021/22) and PLN 80.4m discount unwind on receivables from the sale of Russian stores. At the same time, higher YoY costs of interest on loans and bonds (PLN 121.3m versus PLN 15.3m in 2021/22). PLN +25.1m of adjustments on liabilities under IFRS16 in 2021/22.

## WORKING CAPITAL

(PLN m, 4Q21/22 without restatement)

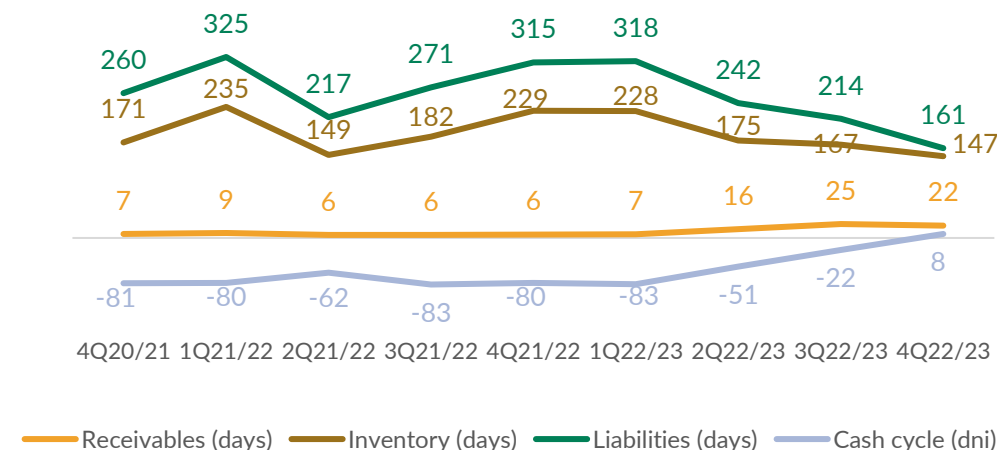

4Q22/23

22

## CASH CONVERSION CYCLE

(days)

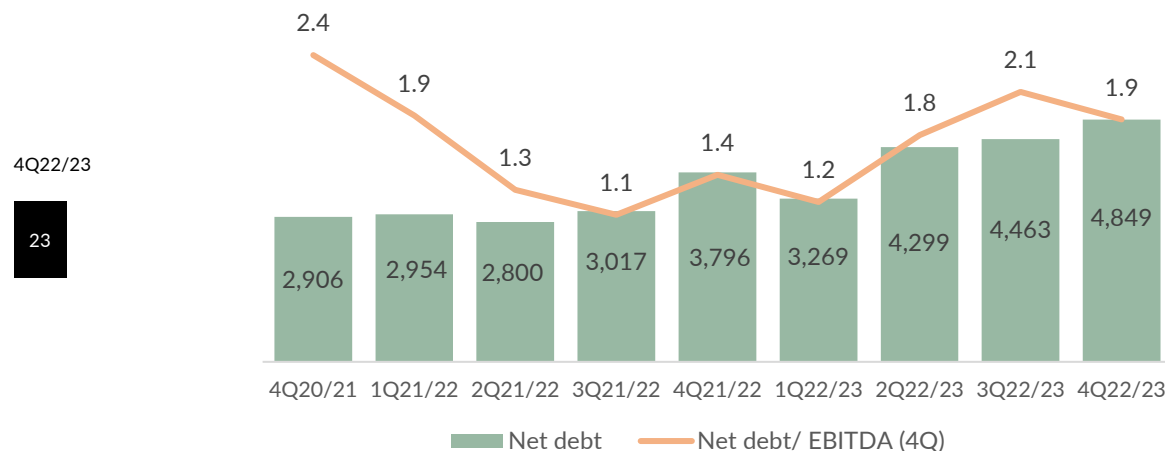

- Less favorable YoY working capital is a short-term trend - repayment of trade liabilities before the sale of inventories, high base effect.
- Lower use of reverse factoring - PLN 1.5bn at the end of 4Q22/23 (PLN 3.5bn limit) vs. over PLN 3.3bn at the end of 4Q21/22.
- PLN 0.9bn of receivables at the end of 4Q22/23 - high level mainly due to receivables from the sale of goods belonging to Russian stores, repayment of c. PLN 0.2 billion during the quarter.
- Operating cash flows in 4Q22/23 amounted to PLN 473m, sizeable YoY growth versus PLN 38m in 4Q21/22 due to freeing some of the inventory and receivables repayment.

# Safe net indebtedness level

## NET DEBT

(PLN m, IFRS16, from 1Q22/23 lack of Russian subsidiary)

## CAPEX

(PLN m, data from 1Q21/22 for continued operations)

- At the end of 4Q22/23, net debt under IFRS 16 amounted to PLN 4.8bn due to higher usage of debt (financing of the slower rotating inventory), PLN 3.7bn came from finance leases.
- Net debt does not include PLN 0.6bn in money market funds and collateral deposits for reverse factoring. YoY fall compared to PLN 1.3bn in 4Q21/22 due to collateral release. At the end of 4Q22/23 factoring was secured only by US\$ 66m invested in income generating money market funds. Including these, the net debt/EBITDA (Q4) would be 1.7x.
- In 4Q22/23, capital expenditures amounted to PLN 317.3m, i.e. 22.9% YoY more on continuing operations. Store capex amounted to PLN 228.9m and PLN 88.4m on infrastructure and IT.

Resignation from the outsourced FC in Stryków, transfer of operations to Jasionka FC (owned) and Pruszcz Gdański FC (rented). Operations run by LPP Logistics.

Economies of scale in foreign logistics – another Distribution Centre in Romania will allow for efficient service of stores in the SEE region.

Additional benefits from own logistics company:

- replacement of the external operator with its own operating model in Slovakia,
- benefits from the special economic zone in Poland.
